Thanks to all for coming this morning and putting up with a few rough edges. Aoife enjoyed doing the planning and taking the money! Moreover says she learned a lot and is happy to do it again! We think it was enjoyed by all. One control was incorrectly placed and another had to be pegged to a bush neighbouring the seat. The pilfered control was found by Fred and thanks to him for helping with the maps and also collecting controls. Thanks to Patrick for delivering the materials, John for preparing the maps and Brian for overseeing the start. In future we would use fine red marker pens to mark the routes, have more master map copies for each course and we should have remembered to print out separate control descriptions for each course as the ones on the maps are readable only by M/W21's or younger!

See you at Havannah on 25th April!
